YOUTH OUTPATIENT SERVICES

EmberWood Center has been recognized as a leader in understanding the unique needs of adolescents facing substance abuse issues and offers a wide range of services—from teens who are experimenting with drugs and alcohol to those who are suffering from an addiction.

COMMUNITY BASED PROGRAM FOR YOUTH & FAMILY

EWC hosts a Family Fun Night that encourages families to spend time together. The events may include sporting events, such as free tickets to attend Pacers, Fever, Colts and Indians games. It may be an activity, like pumpkin carving hosted on-site at the EWC facility. Other functions, such as volunteer

opportunities and holiday dinners, also foster family growth. All events are provided at no cost.

ADULT OUTPATIENT SERVICES

Our outpatient program specializes in providing drug and alcohol addiction treatment for adult men and women and their families. EWC offers three levels of outpatient treatment services for adults: educational services (Level .5), outpatient treatment services (Level 1), and intensive outpatient treatment services (Level 2). Clinicians assess each new client to determine appropriate placement.

SERVICES IN SPANISH/ SERVICIOS EN ESPANOL

EmberWood Center supports our Spanish speaking community struggling with drug and alcohol addictions. Our Spanish-speaking staff will assist clients through the assessment, individual counseling

sessions and groups.

SERVICES INCLUDE

- Treatment that is based on each person's unique needs
- Individual goal setting
- Evidence-based practices that are founded on years of research in addiction treatment
- One-to-one care with a primary counselor
- Both English and Spanish-Speaking group sessions focusing on topics to increase efficacy of treatment
- Urinalysis drug screening
- Social Support Group—for people who have completed primary treatment and need some additional support for *no additional charge*
- *Medication Assisted Treatment Services (MATS)*
